The Legislative Research Unit is the central general research agency for the General Assembly. A board of 12 legislators, appointed by the Joint Committee on Legislative Support Services, supervises its operations.

A staff of researchers handles inquiries from legislators, legislative committees, and partisan staff. The staff's areas of expertise include law generally, science and technology, taxation, education, local government, economics and fiscal affairs, and the political and social history of Illinois.

Federal Funds to State Agencies

FY 2008–FY 2010

Annual Report to the Illinois General Assembly
NINETEENTH EDITION

July 2010

Publication No. 351

The Legislative Research Unit compiled the information in this volume from a comprehensive survey of all Illinois state agencies. The publication of *Federal Funds to State Agencies, FY 2008-FY 2010* would not have been possible without the cooperation and support of many program managers, budget analysts, and state agency directors. Although it is not possible to list every individual's name, we are grateful to all for their contribution.

Foreword

The *Illinois Compiled Statutes* require the Legislative Research Unit to compile and maintain information on federal aid programs administered by Illinois state agencies, and to report to the Illinois General Assembly on those programs. *Federal Funds to State Agencies, FY 2008-FY 2010*, the nineteenth edition of this report, is submitted by the Legislative Research Unit to fulfill this responsibility.

This edition includes program descriptions and outlay information, as well as sections to assist legislators and staff in linking the federal program data to the state budget. A State Trust Fund section identifies the trust fund(s) used for depositing the federal grants, and a table indicates which state programs are supported and what areas and populations of Illinois are served by the federal grants.

It is the hope of the Legislative Research Unit that this handbook will be a useful resource for legislators in enhancing their understanding of federal assistance.

INTRODUCTION

The Legislative Research Unit, a bipartisan support services agency of the General Assembly, has the responsibility of serving as the “. . . information center for the General Assembly in the field of federal-state relations, . . . and compiling and maintaining current information on available and pending federal aid programs.” [25 ILCS 130/4-2.1] In meeting this responsibility, the Legislative Research Unit records and tracks applications for, and awards of, federal grants to state agencies. In addition, the Legislative Research Unit conducts an annual survey designed to identify federal funds received by Illinois state agencies.

This *Federal Funds to State Agencies* report is designed to provide legislators and legislative staff with a comprehensive guide to federal funds that are received by state agencies. It augments the information provided in the Legislative Research Unit’s weekly reports of federal fund transactions by listing federal aid awards on a state or federal fiscal year basis and including descriptive program information. Weekly reports are provided only to agencies that submitted applications in a particular week. It is hoped that this information will help legislators and legislative staff develop a clearer understanding of the federal programs used by Illinois state agencies, and of the levels at which those programs are funded.

The Legislative Research Unit is also required to report annually to the General Assembly on the adequacy of state agency participation in programs financed by federal aid and the nature of federal aid programs in which state agencies or local governments did not participate, and to make recommendations. [25 ILCS 130/4-2.1(c)]

Adequacy of Participation in Federal Aid Programs

Each state agency, in its budgetary process with the General Assembly, reports evaluation and funding data as required. Through this process, the General Assembly receives information on the adequacy of programs financed by federal aid in the State. The Legislative Research Unit, as requested or assigned by members of the General Assembly, produces special reports relative to federal funds.

Identification of New Federal Funds (Types and Nature of Programs Not Applied For)

The Legislative Research Unit works closely with the Illinois Federal Clearinghouse in the Governor’s Office to identify and make information available on federal aid programs that may provide resources for state agencies and local governments. Extensive Clearinghouse information, including referrals to Legislative Research Unit’s publications, such as *Grant Alerts*, is available on the Internet at www.ilga.gov/commission/lru/lru_home.html. *Grant Alerts* is also published monthly and mailed to potential grant users throughout the state.

Recommendations

The Legislative Research Unit will make recommendations as deemed appropriate.

Overview

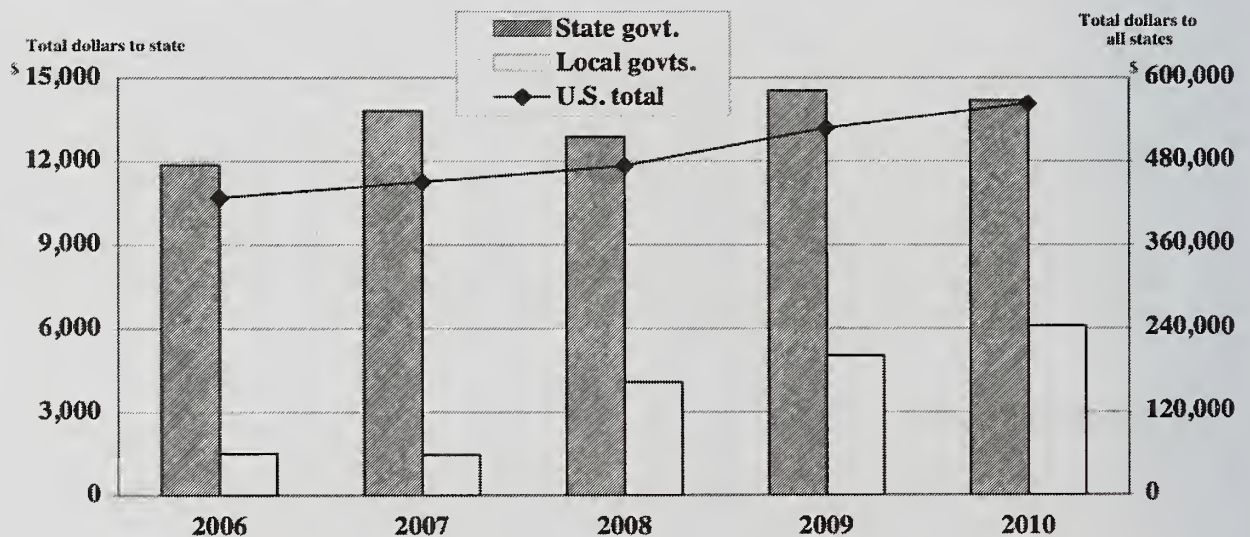

Illinois state agencies receive federal funds from about 348 programs per year, plus 33 from only American Recovery and Reinvestment Act of 2009 (ARRA) funds and 18 that received both ARRA and non-ARRA funds. State revenues from federal appropriations decreased in FY 2008, increased in FY 2009, and are projected to decrease again in FY 2010, as shown in Table 1 and Figure 1 below. Table 1 shows the amounts state agencies reported receiving and the total received by Illinois governments as reported by Federal Funds Information for States. The difference is listed as local/unreported because the Illinois total is based on federally enacted amounts; agency data presented in this handbook is actual receipts for 2008 and 2009 and projected FY 2010 funding.

Figure 1: Federal Appropriations for Grants to Illinois Governments, FYs 2006-2010 (millions)

In FY 2010, actual awards received by state agencies are estimated to be \$15 billion, a \$3 billion decrease from the \$18 billion received in FY 2009. Most of the increase in 2009 was due to ARRA money. Program details are summarized in Appendix B.

Some of the major increases in federal funds from FY 2009 to FY 2010 include the Department of Commerce and Economic Opportunity's Low-Income Home Energy Assistance Program; Department of Children and Family Services' Community Development Block Grants/States' Program and Non-Entitlement Grants in Hawaii; and the Department of Transportation's Highway Planning and Construction program.

Programs with substantial reductions include the Department of Healthcare and Family Services' Medicaid Vendor Payment; the Emergency Protection Agency's Superfund State, Political Subdivision, and Indian Tribe Site-Specific Cooperative Agreements; and the Department of Public Health's HIV Care Formula Grants.

Using This Handbook

The federal programs in this handbook were included if the funds were received directly from the federal government or a non-state agency (such as a consortium of states that receive federal monies for a particular project or a national study group that pays the state agency for research or services). Programs in which a state agency received funds from another state agency (subgrants) have been excluded to avoid "double counting," or falsely inflating the dollar totals. However, Appendix C on subgrants has been added to indicate the flow of federal funds from some state agencies to others.

The program descriptions in *Federal Funds to State Agencies* are preceded by a table of contents that lists the federal programs used by state agencies from FY 2008 through FY 2010. This table will help find the location of the federal program descriptions as well as indicate which groups of federal programs are used by each state agency. Tables showing federal aid award totals by state agency are appended. Programs within each agency are listed by the numbers assigned to them by the U.S. Office of Management and Budget (OMB) in their *Catalog of Federal Domestic Assistance*. Descriptions of each program include the proper name, program description (objectives and services provided or supported), formula description, matching requirements, account identification number (federal), and a table illustrating the outlays to Illinois for FY 2008, FY 2009, and FY 2010.

This *Federal Funds to State Agencies* handbook contains two sections of state information to assist legislators and staff in linking the federal program data to the state budget. A State Trust Fund section identifies the trust fund(s) used for depositing the federal grants, and a table identifies which state programs are supported and what areas and populations of Illinois are served by the federal grants. (See the example below.)

State Programs Supported	Pop. Served	Area
Economic Development	General	Statewide
Illinois State Resource Center	2 million	Statewide
Treatment Alternatives to Street Crime	4,080	Cook

Descriptions of the federal programs include their proper names, common names (where appropriate), and five-digit identifying numbers (referred to as OMB catalog numbers) as listed in the U.S. Office of Management and Budget's *Catalog of Federal Domestic Assistance*. Each OMB catalog number serves to identify a federal program and the administering federal agency. In a few instances where federal programs are not listed in the *Catalog of Federal Domestic Assistance*, LRU has assigned a unique identifying number. The program descriptions are arranged in ascending order by OMB catalog number. For example, the list on the next page shows the basic numbering scheme and the corresponding federal agencies.

Information Sources

The basic sources for the fiscal data included in the *Federal Funds to State Agencies* report are the Legislative Research Unit's annual federal aid surveys which have examined the use of federal funds by Illinois state agencies from FY 1973 until the present. The LRU has combined its survey information with information compiled through its weekly federal aid tracking system to obtain actual and estimated totals for most federal programs. The fiscal information is supplied

directly by the state agencies, and it is assumed the figures are supplied in good faith and are substantially correct. In a few cases where federal programs provide funds under several sub-categories, the fiscal information was obtained from Federal Funds Information for States, a project sponsored by the National Conference of State Legislatures and the National Governors Association. The primary source for the program descriptive information is the U.S. Office of Management and Budget's *Catalog of Federal Domestic Assistance*.

16.590 COMMUNITY-DEFINED SOLUTIONS TO VIOLENCE AGAINST WOMEN GRANT PROGRAM*

Program Description: The program provides grants for governments, state and local courts (including juvenile courts), tribal courts, and units of local government to treat domestic violence, dating violence, sexual assault, and stalking as serious violations of criminal law.

Formula Description: The program has no statutory formula or matching requirements.

SUPREME COURT

93.586 STATE COURT IMPROVEMENT PROGRAM

Program Description: The program provides formula grants to assist state courts in carrying out their role in the continuum of care provided for families and children at risk. It offers support for the implementation of alternatives and improvements, as well as the expansion of successful court systems. It enables state courts to design assessments that identify barriers to effective decision-making, highlight practices that are not fully successful, examine areas in need of correction or added attention, and then implement reforms that address the state court's specific needs.

Formula Description: Each state court with an approved application is allotted \$85,000 for each of the fiscal years 2007-2011. In addition to this base amount, the remainder of the amount appropriated for all state courts will be divided among those courts with approved applications, according to each state's proportionate share of children under the age of 21. Twenty-five percent of the total cost must come from non-federal funds.

ATTORNEY GENERAL

16.543 MISSING CHILDREN'S ASSISTANCE

Program Description: The program provides grants to public agencies or private non-profit organizations for research, demonstration projects, or service programs designed to: (1) educate parents, children, and community agencies and organizations in ways to prevent the abduction and sexual exploitation of children; (2) provide information to assist in the location and return of missing children; (3) aid communities in the collection of materials which would be useful to parents in assisting others in the identification of missing children; (4) develop effective treatment for the psychological consequences to both parents and children of (a) the abduction of a child, both during the period of disappearance and after the child is recovered, and (b) the sexual exploitation of a missing child; (5) collect detailed data from selected states or localities on the actual investigative practices used by law enforcement agencies in missing children's cases; (6) address the particular needs of missing children by minimizing the negative impact of judicial and law enforcement procedures on children who are victims of abuse or sexual exploitation and by promoting the active participation of children and their families in cases involving abuse or sexual exploitation of children; (7) address the needs of missing children and their families following the recovery of such children; (8) reduce the likelihood that individuals under 18 years of age will be abducted; and (9) establish or operate statewide clearinghouses to assist in recovering or locating missing children.

Formula Description: The program has no statutory formula or matching requirement.

16.800 ARRA—INTERNET CRIMES AGAINST CHILDREN TASK FORCE PROGRAM (ICAC)*†

Program Description: The program provides grants to public agencies or private non-profit organizations for research, demonstration projects, or other programs that support ICAC task forces. The goal is to prevent technology-facilitated sexual exploitation by supporting at least one task force in each state. Task forces provide forensic and investigative technical assistance to law enforcement and prosecutorial officials, as well as community education information to parents, educators, prosecutors, law enforcement, and others concerned with child victimization. Funds should also be used to further one or more of the purposes of the Recovery Act.

Formula Description: The program has no statutory formula; no match is generally required, but a 25% may be required for some distributions. The next Attorney General may waive matching requirements.

LIEUTENANT GOVERNOR

15.614 COASTAL WETLANDS PLANNING, PROTECTION, AND RESTORATION ACT

Program Description: The program provides competitive matching grants to coastal states for coastal wetlands conservation projects. The Coastal Wetlands Planning, Protection, and Restoration Act established the National Coastal Wetlands Conservation Grant Program to acquire, restore, and enhance wetlands in coastal states. Funds are available to coastal states for acquisition of interests in coastal lands or waters, and for restoration, enhancement, or management of coastal wetlands ecosystems on a competitive basis.

Formula Description: The federal share of project costs is up to 50%; except that the federal share may be increased to 75% if a state has a trust fund for the purpose of acquiring coastal wetlands, other natural areas, or open spaces.

Program Description: The program is designed to encourage elementary and secondary schools and community-based agencies to create, develop, and offer service-learning opportunities and incorporate them into classrooms. The goal is to enhance academic learning, coordinate adult volunteers in schools, and introduce students to a broad range of careers and encourage them to pursue further education and training. Funding comes from the Corporation for National and Community Service.

Formula Description: Federal share of the program cost may not exceed 90% for the first program year; 80% for the second year; 70% for the third year; and 50% for the fourth and any subsequent year.

SECRETARY OF STATE

5.310 GRANTS TO STATES

Program Description: The program consolidates federal library services programs designed to stimulate excellence and promote access to learning and information in all types of libraries. It also assists in providing linkages among libraries, and promotes targeted library services to people of diverse geographic, cultural, and socioeconomic backgrounds. Grants are available to state library administrative agencies, which may spend the money themselves or use it to make grants to other agencies. Subgrants may be made for the following purposes: (1) to establish or enhance electronic linkages among libraries; (2) to link libraries electronically with educational, school, or information services; (3) to assist libraries in accessing information through electronic networks; (4) to encourage different types of libraries to establish consortia and share resources; (5) to pay costs for libraries to acquire or share computer systems and telecommunications technologies; and (6) to target library and information services to persons having difficulty using a library and in underserved urban and rural communities, including children from birth through age 17 from families with incomes below the poverty line.

Formula Description: Grants to states are based on the most recent total population calculations from the Bureau of the Census, but with a \$340,000 minimum for the 50 states, District of Columbia, and Puerto Rico; and a \$40,000 minimum for the other outlying areas. The federal share is 66%.

10.555 NATIONAL SCHOOL LUNCH PROGRAM

Program Description: The program assists states in providing more nutritious school lunches through the donation of domestic agricultural commodities and cash grants.

Formula Description: The program is funded on a performance basis. For every lunch served the state receives a payment from funds made available under the School Lunch Act. The state also receives a payment for each lunch served to a student eligible for free or reduced-price

lunches. The amounts of such per-lunch payments are determined by National Average Payment (NAP) factors. NAP factors are adjusted annually according to changes in the "food away from home" component of the Consumer Price Index for all urban consumers.

10.560 STATE ADMINISTRATIVE EXPENSES FOR CHILD NUTRITION*

Program Description: The program provides funds to states for administrative expenses associated with supervising and giving technical assistance to schools and other institutions that conduct Child Nutrition Programs. State agencies that administer the distribution of USDA donated commodities to schools, or child or adult care institutions, are also eligible for funding.

Formula Description: For the National School Lunch Program, School Breakfast Program, and Special Milk Program, recipients receive 1% of the total funds used in the state for these programs during the second preceding year, with a minimum of \$200,000 or the amount received in FFY 1981. (Additional funds may be provided by the Secretary of Agriculture.) For the Child and Adult Care Food Program a sliding grant is based on program and fiscal data. Each state must contribute at least as much as it did in FFY 1977.

DEPARTMENT OF COMMERCE AND ECONOMIC OPPORTUNITY

11.307 ECONOMIC ADJUSTMENT ASSISTANCE

Program Description: The program provides grants to address the needs of distressed communities experiencing adverse economic changes that may occur suddenly or over time. Current investment priorities include (a) supporting, developing, or attracting regional economic drivers or industry clusters; (b) supporting technology-led economic development that link universities and industries and technology transfers; and (c) advancing community- and faith-based social entrepreneurship in redevelopment strategies.

Formula Description: The program has no statutory formula. The maximum federal investment is 50% of the project cost, except that projects may receive 80% of costs based on relative needs. States that have exhausted their effective borrowing and taxing capacity, or nonprofit organizations that have exhausted their effective borrowing capacity, may also be eligible for 100% of costs.

14.228 COMMUNITY DEVELOPMENT BLOCK GRANTS/STATES' PROGRAM AND NON-ENTITLEMENT GRANTS IN HAWAII

Program Description: The block grant program (also called the "small cities" program) provides funds for states to develop viable urban communities by providing decent housing, a suitable living environment, and expanded economic opportunities—principally for those with low or moderate incomes. Activities must support one of the National Objectives by: benefiting low- and moderate-income families; aiding in the prevention or elimination of blight or slums; or meeting other community development needs.

Formula Description: Non-entitlement cities receive 30% of CDBG funds. The statistical factors for each state reflect only the non-entitled areas of the state. The allocation is based on one of two formulas, whichever is greater. Formula one factors are population, extent of poverty, and extent of overcrowding; the second formula factors are population, poverty, and age of housing (number of year-round housing units built before 1939 or earlier). States redistribute funds to localities. States may use \$100,000 (up to 3%) of total allocation for program administration, but must match 50% of such costs over \$100,000.

14.231 EMERGENCY SHELTER GRANTS PROGRAM

Program Description: The program is designed to help improve the quality of existing emergency shelters for the homeless, make additional emergency shelters available, and meet the costs of operating emergency shelters and providing essential social services to homeless individuals. The program is also intended to help prevent homelessness.

Formula Description: The amount of each grant is determined by the Community Development Block Grant formula, which consists of several measures of community need, including poverty, population, housing overcrowding, age of housing, and growth lag. If, according to the formula, an eligible government receives less than .05% of each appropriation in any fiscal year, the funds are added to the state allocation. The state must then sub-grant it to local government or nonprofit organizations. The state may use up to 5% for administration costs. There is a 50% match for sub-grantees.

93.710 ARRA—COMMUNITY SERVICES BLOCK GRANT (CSBG)*†

Program Description: The Recovery Act provided additional funds for states to promote the economic and social well-being of children, youth, families, and communities. As with regular CSBG grants, states receive funds to facilitate a variety of services for the poor. However, the Recovery Act funds differ from the uses and restrictions that apply to allotments to states from regular CSBG appropriations. States must pass through 99% of funds to "eligible entities," and use the remaining 1% for benefits enrollment coordination activities.

Formula Description: This program has no matching requirement.

10.555 NATIONAL SCHOOL LUNCH PROGRAM

Program Description: The program assists states in providing more nutritious school lunches through the donation of domestic agricultural commodities and cash grants.

Formula Description: The program is funded on a performance basis. For every lunch served the state receives a payment from funds made available under the School Lunch Act. The state also receives a payment for each lunch served to a student eligible for free or reduced-price lunches. The amounts of such per-lunch payments are determined by National Average Payment (NAP) factors. NAP factors are adjusted annually according to changes in the "food away from home" component of the Consumer Price Index for all urban consumers.

Program Description: The program reimburses states for the cost of incarcerating any illegal alien who is convicted of a felony or two or more misdemeanors. Funds partially offset the costs of imprisoning criminal aliens in facilities within the state during the reimbursement period. There are no restrictions on, or prescribed use of, funds except those imposed by state law or the state chief executive.

Formula Description: The program has no statutory formula. Awards are based on the verified number of aliens, and their length and average daily cost of incarceration. Applicants can expect to receive only partial reimbursement for their total request.

17.225 ARRA—UNEMPLOYMENT INSURANCE*†Δ

Program Description: The program provides funding for unemployment insurance to eligible workers through federal and state cooperation. Federal unemployment insurance tax collections are used to finance the administration of state unemployment laws, reimburse states for one-half of the benefits extended, and make repayable advances to states when needed to make benefit payments. Disaster unemployment assistance is paid out of funds provided by the Federal Emergency Management Agency. Benefits for former federal civilian employees are paid out of the Federal Employees Compensation Account in the Unemployment Trust Fund, subject to reimbursement by the former employing agency. Funds used for benefits payments may not be used for administrative costs or training, job search, and job relocation payments.

Formula Description: The program has no statutory formula or matching requirements.

17.271 WORK OPPORTUNITY TAX CREDIT PROGRAM (WOTC)

Program Description: The tax credit is designed to help individuals in twelve target groups that have consistently faced significant barriers to employment move from economic dependency to self-sufficiency by encouraging businesses to hire the target group members. Businesses are eligible to claim tax credits against the wages paid to the new hires during the first year of employment. States are to use these formula grants for: determining eligibility of individuals as members of targeted groups; issuing employer certifications or denials; developing working agreements with partner agencies in the One Stop Service Delivery system; and coordinating efforts to promote WOTC to employers and job seekers and other Workforce Investment Act (WIA) partners.

Formula Description: Funds are allotted based on each state's relative share of total certifications issued for the WOTC Program in the previous year, the civilian labor force, and adult recipients of Temporary Assistance for Needy Families. There are no matching requirements.

93.767 STATE CHILDREN'S INSURANCE PROGRAM

Federal regulations require all Medicaid expansion SCHIP costs to be funded through the SCHIP appropriation rather than the Medicaid appropriation.

Program Description: The program provides formula grants to states to enable them to maintain and expand child health assistance to uninsured, low-income children and, as a state option, low income pregnant women and legal immigrants. Assistance may be provided in one of three ways: (1) by obtaining qualified health insurance coverage; (2) by expanding eligibility for children under the state's Medicaid program; or (3) a combination of the two.

Formula Description: Funds are allotted proportionately to states based on two factors: (1) the number of children potentially eligible for SCHIP, and (2) a state cost factor. A state match is required.

93.778 **MEDICAL ASSISTANCE PROGRAM**

The program (referred to as Medicaid) provides funds under two categories. Each is presented separately below to provide as much detail as possible concerning the purpose, formula, and funding for the various units of this program.

(1) MEDICAID VENDOR PAYMENTS

Program Description: Authorized under Title XIX of the Social Security Act, Medicaid provides financial assistance to states for the provision of medical care to low-income individuals and others who may be eligible (pregnant women, infants, children, the elderly), as defined by age and poverty criteria. Certain services must be provided by states for the categorically needy or the medically needy. Federal funds are awarded to a designated State Medicaid Agency, and recipients must meet state requirements.

Formula Description: The state match required is determined by a state's Medicaid expenditures and personal income relative to the national average for the three preceding years. The minimum federal share is 50% and the maximum is 83%. Matching rates change annually. There is a maintenance of effort requirement.

(2) MEDICAID STATE ADMINISTRATION AND TRAINING

Program Description: The federal government pays 50% of most state administrative costs for Medicaid. For smaller segments of the program, including family planning and the Medicaid Management Information System, the federal match is 90% for certain start up expenses. For federally encouraged segments of the program, such as the employment of skilled medical professionals, the match is 75%.

Program Description: The program provides grants to help resolve major healthcare financing issues and to develop innovative methods for administering Medicare and Medicaid. Grants are awarded as research grants and cooperative agreements; Hispanic health services grants; and historically black colleges and university grants. Priority areas for grants include protecting and empowering specific populations; pay for performance for multiple provider settings; understanding health differences and disparities (and closing gaps); preventing disease, illness, and injury; and agency-specific priorities.

Formula Description: With the exception of section 1115 projects, which follow the same administrative and operational formula as Medicaid, there is no statutory formula for this program. A minimum cost sharing of 5% may be required.

10.557 SPECIAL SUPPLEMENTAL NUTRITION PROGRAM FOR WOMEN, INFANTS, AND CHILDREN

Program Description: The program (referred to as WIC) provides grant funds for state health departments for further distribution to local public or nonprofit health facilities and organizations. It provides supplemental food and nutrition information to help safeguard the health of pregnant, postpartum, and breast-feeding women; and infants and children to age five who are at nutritional risk and have inadequate incomes. Funds support both program activities and state administration.

Formula Description: The distribution of funds is aimed primarily at maintaining participation levels. The initial stability grants ensure that each state receives no less than its prior year level adjusted for inflation. Any appropriated funds remaining after those amounts are distributed are allocated in the following manner: one-half through a growth formula (which distributes funds to states with the lowest percentage of income eligible individuals served); and one-half by a targeting formula that depends on a state's success in serving the top three priority groups for allocation. No matching funds are required.

medically approved methods of contraception including natural family planning methods, counseling services, physical examinations including cancer detection and laboratory tests, contraceptive supplies, and periodic follow-up examinations. Infertility services include diagnostic workup, information, education and counseling, and arrangements for referral if necessary. Special services to adolescents include in-depth information, education counseling, and referral to and from other social and medical service agencies, and such ancillary services as necessary to facilitate clinic attendance for adolescents. Family planning services must be available without coercion and with respect for the privacy, dignity, and social and religious beliefs of the individuals being served. To the extent possible, entities that receive grants should encourage family participation. Funds may not be used in programs where abortion is a method of family planning.

93.235 ABSTINENCE EDUCATION PROGRAM

Program Description: The program is designed to enable states to provide abstinence education and, when appropriate, mentoring, counseling, and adult supervision to promote abstinence from sexual activity. States may use abstinence education funds for educational or motivational programs which (a) have as their exclusive purpose teaching the social, psychological, and health

gains to be realized by abstaining from sexual activity; (b) teach abstinence from sexual activity outside marriage as the expected standard for all school age children; (c) teach that abstinence from sexual activity is the only certain way to avoid out-of-wedlock pregnancy, sexually transmitted diseases, and other associated health problems; (d) teach that a mutually faithful monogamous relationship in context of marriage is the expected standard of human sexual activity; (e) teach that sexual activity outside of the context of marriage is likely to have harmful psychological and physical effects; (f) teach that bearing children out of wedlock is likely to have harmful consequences for the child, the child's parents, and society; (g) teach young people how to reject sexual advances and how alcohol and drug use increases vulnerability to sexual advances; and (h) teach the importance of attaining self-sufficiency before engaging in sexual activity.

Formula Description: States must provide 3/7 of program costs.

93.558 TEMPORARY ASSISTANCE FOR NEEDY FAMILIES

Program Description: The program is designed to provide assistance to needy families with children so that the children can be cared for in their own homes. The goal is to promote job preparation, work, and marriage, thus reducing out-of-wedlock pregnancy and encouraging the formation of two-parent families. Cash grants, work opportunities, and other services are provided directly to needy families with children. States have broad flexibility to use grant funds in any manner that meets the purposes of the program (including providing low-income households with assistance in meeting home heating and cooling costs) and in ways authorized under the previous assistance programs, Aid to Families with Dependent Children, Job Opportunities and Basic Skills Training, and Emergency Assistance programs. States may also transfer a portion of their assistance grant funds to the Child Care and Development Block Grant and Social Services Block Grant Programs. Not more than 15% of any grant may be spent on administrative costs, exclusive of certain computerization and information technology expenses.

Formula Description: To receive full allocation, states must demonstrate they are allocating to TANF-related activities 80% of the amount of nonfederal funds they spent in FY 1994 on AFDC and related programs. If a state meets minimum work requirements, mandatory state effort is reduced to 75%. For contingency funds, states must sustain maintenance of effort and provide a

state match at the fiscal year 1995 federal Medical Assistance Percentage rate (Illinois' rate is 50%). The assistance grant may be reduced for failure to meet any of 11 different program and fiscal requirements. Penalties may be waived for reasonable cause or upon implementation of an approved corrective action plan.

93.596 CHILD CARE MANDATORY AND MATCHING FUNDS OF THE CHILD CARE AND DEVELOPMENT FUND

The program provides funds under two categories. Each of these categories is presented separately below in order to provide as much detail as possible concerning the purpose, formula, and funding for each unit.

(1) CHILD CARE MANDATORY/GUARANTEED

Program Description: Along with similar, related programs, the program makes grants to states to assist low-income families with child care. It is designed to: (1) allow maximum state flexibility; (2) promote parental choice in child care; (3) encourage states to provide consumer education for parents; (4) help states provide child care to parents trying to gain independence from public assistance; and (5) help states implement related standards. Not more than 5% of funds may be for administration; and funds must supplement, not supplant, state funds. The mandatory part of the block grant replaces the AFDC/JOBS-Child Care Title IV-A of the Social Security Act and must be administered by a single agency. In addition, 4% of the money is to be set aside to provide comprehensive consumer education to parents and the public, as well as for activities that increase parental choice and improve the quality and availability of child care.

Formula Description: Mandatory funds are allocated based on the federal share of expenditures for Title IV-A child care in FY 1994, FY 1995, or the average of FY 1992-1994, whichever is greater. There is no state match required but the program does have a maintenance of effort requirement.

(2) CHILD CARE MANDATORY/MATCHING

Program Description: The mandatory/matching funds have the same program goals as the guaranteed program. Matching money is not available to the state until a state has expended all of its guaranteed child care grant plus an amount equal to what was spent from its own funds on the Title IV-A child care in FY 1994 or FY 1995, whichever is higher.

Formula Description: Mandatory/matching funds are allocated according to the proportion of children under age 13, and are capped based on a share of available funds. The state's match is determined by its state Medicaid match.

96.008 SOCIAL SECURITY—WORK INCENTIVES PLANNING AND ASSISTANCE PROGRAM

Program Description: The program is designed to comply with the Ticket-to-Work and Work Incentives Investment Act that requires the Social Security Administration to establish a community-based work incentives planning and assistance program. The program provides statewide benefits planning and assistance, along with information on the availability of protection and advocacy services, to all Social Security Disability Insurance and Supplemental Security Income beneficiaries with disabilities. Another component of the program provides funds to conduct ongoing outreach to those beneficiaries with disabilities and to their families who may be eligible to participate in state or federal work incentives programs. The program also disseminates accurate

information to beneficiaries with disabilities about work incentive programs and issues related to such programs.

Formula Description: The formula is based on the percentage of beneficiaries with disabilities. There is a maximum award of \$300,000 and minimum of \$50,000. The required match ranges from 5% to 25% of total project costs.

10.665 SCHOOLS AND ROADS—GRANTS TO STATES

Program Description: The program is designed to share receipts from national forests with those states in which the forests are located. Funds may be used to benefit public schools and roads of the county or counties in which the forests are located.

Formula Description: The federal government distributes 25% of the revenue from each national forest in the preceding fiscal year. When a national forest spans more than one state, the revenue is proportional to the state's share of the forest. Revenues include those from the sale of timber and other forest products, the sale of minerals, and the fees collected for land use within the forest.

Program Description: The program is designed to: (1) protect nonfederal forest and tree resources from damaging forest insects, disease causing agents, and invasive plants; (2) develop/improve forest health protection technologies; and (3) monitor the health of forests. Part of the goal is to help support a base level of professional forest health expertise for non-federal forest land managers. A wide variety of activities are supported.

Formula Description: Grants are allocated to states using a formula that is based on the number of acres of non-federal forest land within the states and other factors. Applicant matching is required and is usually about 50%. In cases where it is mutually agreed that an applicant will treat federal lands as part of a cooperative project or program, the Forest Service reimbursement is 100% for the federal portion. However, applicant matching rates may be adjusted in emergency or extraordinary situations.

HOUSING DEVELOPMENT AUTHORITY

14.239 HOME INVESTMENT PARTNERSHIPS PROGRAM

Program Description: The program is designed to: (1) expand the supply of affordable housing, particularly rental housing, for low-income Americans; (2) strengthen the abilities of state and local governments to design and implement strategies for achieving adequate supplies of decent, affordable housing; (3) provide both financial and technical assistance including the development of model programs for developing affordable low income housing; and (4) extend and strengthen partnerships among all levels of government and the private sector, including for-profit and non-profit organizations, in the production and operation of affordable housing.

Ninety percent of the funding for rental housing must be for families below 60% of the area median income; 10% for families below 80% of the median. Assistance for homebuyers must be for families below 80% of the area median income. Up to 10% may be used for administrative costs.

Formula Description: Funding is based on several variables that show the need for an increased supply of affordable housing for low- and very low-income families. Grants require a 25% match.
